

Correction of Mason, F., Cantoni, E., & Ghisletta, P. (2021). Parametric and Semi-Parametric Bootstrap-Based Confidence Intervals for Robust Linear Mixed Models

Methodology, 2022, Vol. 18(1), 74, <https://doi.org/10.5964/meth.8165>

Published (VoR): 2022-03-31

In the published version of

Mason, F., Cantoni, E., & Ghisletta, P. (2021). Parametric and semi-parametric bootstrap-based confidence intervals for robust linear mixed models. *Methodology*, 17(4), 271–295.
<https://doi.org/10.5964/meth.6607>

the acknowledgments were left out by accident. The authors would like to add the following acknowledgments:

We thank Drs. Lucia Modugno and Simone Giannerini for providing us with their R script to compute wild bootstraps, and Dr. Manuel Koller for assistance with his R package *robustlmm*. We also thank Drs. Jaromil Frossard, Matt L. Miller, and Olivier Renaud for helpful comments on an earlier version of the manuscript.

Methodology is the official journal of the European Association of Methodology (EAM).
